

Integrated Monarch Monitoring Program Training Event

Saturday, May 4, 2019

Hocking County Soil and Water Conservation District
148 N. Homer Ave, Logan, OH
9:30am – 4:30pm

(\$25 Full day or \$15 Half-day option, see reverse side)

The Integrated Monarch Monitoring Program (IMMP) monitors monarchs and evaluates their habitats to inform monarch conservation efforts.

Join to learn the optional activities:

Milkweed & Blooming Plant Survey

2-4 hours, monthly

Monarch Egg & Larva Survey

1-2 hours, weekly

Adult Monarch Survey

30 minutes, every other week

Monarch Survival & Parasitism

30-60 minutes, daily while raising larva

How to be a Local Monitoring Coordinator

Optional session

The IMMP uses a random sampling design to select monitoring sites in an unbiased way. You may choose to adopt a random IMMP site or select your own **1+ acre** site.
