Join us for a day of exploring vernal pools and the creatures that inhabit them. The morning starts with indoor presentations on the history of the Vernal Pool Partnership, ecology, macro invertebrates, amphibians, and vernal pool flora followed by a light vegetarian lunch. After lunch we will hear about life in a vernal pool, data collection and collaboration, and finally visit and explore vernal pools near by. Please dress for the weather.

Much thanks to The Nature Conservancy of Ohio for the use of their Morgan Swamp Conservation Campus.
